

# PLANTATION PIPE LINE COMPANY

SERVING THE SOUTHEAST SINCE 1940

Tom Guzikowski  
Director – Products Movement East

April 25, 2007

To: Our Customers

Subject: Handling Expense on the Montgomery, Alabama Lateral Interface

As a convenience to our customers, Plantation handles customer interface created on the pipeline between Helena and Montgomery, Alabama. The interface is accumulated in tankage and sold as transmix for reprocessing. The charge for this service since April, 2001 has been \$0.006 per delivered barrel. This is a non-regulated service that has been in place for six years without a rate adjustment. It is now necessary, however, to increase the charge solely in order to cover our current sales expense for interface disposal.

Beginning on June 1, 2007, your invoices for shipments on the Montgomery pipeline will include a charge of \$0.019 per delivered barrel to handle the interface.

Plantation will continue to accumulate all interface in its tank at Montgomery and arrange for its sale to a reputable party. If, however, you desire to remove and handle your own share of the interface, please notify us by May 31, 2007.

We appreciate your past business and look forward to serving your needs in the future.

Sincerely,

Thomas J. Guzikowski
